ABOUT ME

My name is Ayelen, I'm 29 years old and I'm a former Psychology student. I studied Psychology at the University of Buenos Aires (UBA) for some time. In July this year I started studying Frontend React in the CoderHouse Academy.

I consider myself an employee who gets the job done and gives 100% of herself. I have a strong work ethic and attention to detail. I am also a great teamplayer and I work well in teams as well as individually. Regarding my personality I'm spontaneous, intuitive and creative. I am also a fast learner and I love to learn new things everyday.

I'm searching for my first work experience in the IT field. I am highly motivated and would like to pursue a career path in this field!
